HIGHLY COMMENDED
Practice of the Year 2017

And the winner is...

Firstly, we would like to thank all of our patients who participated in last month's competition. We can now reveal that the answer of our collective age is **374**. As there were a few correct answers we decided to put all those answers together in a hat and do a lucky dip. And the lucky winner is **Margaret Cannon!** Well done we hope you enjoy your new electric toothbrush!

Joe heads to Manchester for his MSc this week

Most of you are aware by now that our dentist Joe is studying towards a masters degree in dental implants from the University of Manchester. Here we find out a bit more about his course:

'The teaching days are always on Monday, sometimes Monday and Tuesday. I used to stay down in Manchester on the Sunday night but since we had our baby I now get the 05.40 train from Glasgow central, change at Preston and arrive at Manchester Oxford road by 9am. The University is a short walk from the train station and classes start at 09.30. Getting up at 04.30 is tough but a few coffees help out and I usually get a lot of work done on the train on the way down. There are 5 other people in my class, one travels from London and the rest are from Manchester. My train back is at 5.30pm and the return leg is a direct train so that makes it easier. Normally home by 9.30pm in time for dinner and an episode of game of thrones! The workload is really tough as this year is when I have to write my dissertation but overall its good fun and I'm learning a lot.

All the travelling and early mornings are worth it as I find the course really interesting and want to further my depth of knowledge in implants, to be able to provide my patients with the best possible care.

Having Mr Chan here throughout the experience as a mentor and friend to go to for advice and help has been invaluable.

With only a few months to go I'll look forward to getting a lie in and not having to FaceTime in for breakfast and dinner with my little girl.

Fully Qualified Sedation Nurse

We would proudly like to announce our nurse Gemma is now a fully qualified Sedation Nurse after passing her final exam last month. Gemma was awarded with her certificate earlier this month, Congratulations!

Exam passes

Another great achievement at the practice is that our two nurses Tiegan and Lauren have recently received their Dental Nursing exam results which they sat at the end of last year. They both passed their exam with great results meaning that they now are qualified Dental Nurses. Well done!

Competition time

This month's Competition is giving you the chance to win a free Scale and Airflow polish, all you need to do is correctly guess the answer to the following question. Before semi retiring in November 2017, how many years did Dr Chan spend working in NHS dentistry?

Smile of the month

This smile transformation was created here at Tiwari Watson through the use of an implant, crowns, scale and Airflow polish. Do you want to improve your smile? Book in today to with one of our dentists and begin your journey to a brand-new smile.

What you said about us this month

“Always greeted with a friendly smile on arrival and workers are so professional and make you feel welcome.” - Margaret Campbell

“Very approachable and make you feel at ease with any questions and always willing to help.”- William Scally

“Laura was very patient with me and made me feel at ease very quickly as I am very nervous attending the dentist.”- Fiona Buchanan
