

Tiwari Watson Dental Care February 2019

COMPETITION EXTENDED

We have decided to extend our competition of guessing who is who through our baby photos. All you need to do is correctly match up our team with our current photographs to our baby ones. The cost of entering this competition is £1 and will go to a great cause which is Marie Curie, this competition is giving you the chance to win a Tooth Whitening Kit worth £250!

New Computer System

As you may already be aware, we have recently upgraded to a new and improved computer System. We appreciate our patients understanding and patience you have had with us whilst we get used to working our new system. It's a significant improvement on our old system and will make things run much more efficiently.

OUR 2019 GOALS

As a practice we have decided to set some targets this year which we aim to achieve before the end of 2019!

- Raise at least £1000 for Marie Curie
- Reach 1000 Instagram Followers
- Reach 100 Google Reviews

We'd be grateful if you could help us out with all of them!

Marie Curie

We are working alongside our local community charity Marie Curie and we are supporting the Marie Curie Hospice on Balornock Road. Marie Curie is a registered charitable organisation that provides support and care for people who suffer from terminal illnesses and their families. At the hospice, they aim to achieve the best possible quality of life, whether that may be through helping relieve symptoms, supporting the individual and their loved ones at a difficult time. They do this by working closely with other professional's involved in the patients care such as GP, District nurse and hospital consultant to ensure support is given. However, they can't provide care and support for people living with a terminal illness across the UK without any help, therefore that's why we are stepping in to give them as much help as we can by trying to raise money for this great charity, £20 a month –could pay for a vital hour of nursing care from a Marie Curie Nurse for someone living with a terminal illness every month.

Smile of the Month

This is our patient Elaine who decided she wanted to go ahead with our Invisalign CLEAR REMOVABLE BRACES Treatment after years of not been happy with the positioning of her teeth. Here is what Elaine had to say about her experience: *“I am coming toward the end of Invisalign treatment with Raashi and my only regret about it is not coming sooner. I had braces about 15 years ago and my teeth have gradually returned to how they were previously and I hated them, I felt really paranoid about smiling especially as some of my teeth particularly stood out at some angles. I had thought about straightening them again for a while and had been for a few consultations elsewhere- I wasn't happy with outrageous prices I was quoted or being told I would need healthy teeth removed just to attempt to straighten them. When I came to see Raashi for a consultation I immediately felt it was a much more relaxed and caring atmosphere rather than the cold pushy sales vibe I had felt in some other places. Raashi explained the whole process really clearly and what to expect if I did want to proceed and how we would prevent my teeth regressing again. She encouraged me to go away and have a think rather than try to push anything on me however I had already decided this was the place that I wanted to have my treatment done. I can't believe how quickly my teeth have straightened- for how crooked some of them were. Raashi and all the nurses have been amazing at every appointment, so friendly and caring and always putting me at ease. She has gone above and beyond and tried to make sure my straightening was done by the end of my pregnancy so I wasn't worrying about new trays etc with a new baby here- going above and beyond by volunteering to come in on her day off for a couple of appointments towards the end which I felt showed how caring a dentist she really is. My teeth are unrecognisable from how they were before I feel so much more confident and everyone keeps commenting how amazing they look, I don't feel worried to smile in pictures and wonder how bad my teeth will be looking in them. I am just about to start the final whitening process on them and cannot wait to see the finished results. I would recommend anyone feeling self conscious of their smile/teeth and wanting something done about it to come to Tiwari Watson for Invisalign. I should have come years ago!”*

OUR THERAPISTS

Here at Tiwari Watson Dental Care we have two excellent Hygiene Therapists Andrea and Rebecca, both who carry out various treatment including fillings, scaling and polishing, fissure sealants, taking x-rays, extractions for children and providing dental health education. Our Dentists may refer you to see one of our therapists to have these treatments carried out. However, you are still registered with your own dentist at the practice who will see you for your dental examinations, any other dental treatment and in cases of dental emergencies.

Andrea

Rebecca

Bridge2Aid

Tiwari Watson Dental Care you've signed up as a Unity Partner with Bridge2Aid.

2019 is going to be an exciting year! Your sponsorship will bring access to emergency dental treatment to 10,000 people!

We'll send you updates-but for the now we'd just like to say a big THANK YOU!

As a modern family dental practice, we provide excellent, appropriate and quality dental care. Because we also care about people who don't have access to the most basic, pain relieving and life saving dental treatment, we work with **Bridge2Aid**.

Bridge2Aid trains rural medical workers in East Africa to provide basic and emergency dentistry. For people living in rural areas, there are no dentists, and so the treatment that **Bridge2Aid's** trainees provides can be life saving.

This year we are funding the training of one Clinical Dental Officer – enough to provide access to emergency dentistry to 10,000 people. **We are proud to be one of only 11 of Bridge2Aid's Gold Unity Partner Dental Practices in the whole of the UK.**
