

# Tiwari Watson Dental Care Newsletter October 2019

## WE HAVE A WINNER

We would like to thank everyone who participated in last month's competition of guessing the amount of sugar in each of these drinks. Unfortunately, no one guessed all the correct answers, therefore we decided to put all entrants' names into a hat and pick a lucky winner. We can now reveal the lucky winner is Callum Spinelli!

Well Done!

Kamal and Bili show our sugar content board off. Remember excess sugar can cause tooth decay and can also lead to diabetes.

Tremendous work. Laura is definitely the best dentist in Scotland.  
Just a fact.

 **Brian Webster**  
Also I have to mention how great all the staff are in general. There is a great atmosphere and the communication is top level.

★★★★★

This is my first time at this dental practice. Lauren the dental nurse/ receptionist is very helpful nothing is a bother for her. Kamal the dentist made me feel very calm and he was very attentive. All in all the staff are lovely and I will definitely use this practice again.

## First class service

Joe and his team are outstanding, they are so friendly, caring and professional. Every time I visit I receive the best treatment, Joe always explains the treatment he is going to carry out and gives great aftercare advice too. I recently had two long appointments and Joe gave me earphones to wear so that I could listen to music whilst getting the treatment done. This made me feel so relaxed, it was great. I would highly recommend Joe and his team.

## Patient Stories

This is our patient James who joined our practice a few months ago and decided he wanted the appearance of his smile changed. James is a driving instructor and decided to go ahead with Tooth whitening and veneers and crowns. He is now much happier with his smile. It was great to meet James and help him achieve his smile makeover.

These are our patients Karson and Kayleb who love coming in to see their dentist Laura for their dental check-ups every 6 months! It's always a pleasure to see them. We do recommend everyone attends for their 6 monthly check up appointments as it is really important to keep up to date with your oral health not just for yourselves but your children too! Regular care can help prevent problems down the line.

Our patient Thomas didn't like his teeth as he didn't like how his top teeth stuck out and wanted his teeth to be more level. Thomas underwent our Invisalign Dental Treatment to align his teeth and afterwards had composite bonding. Thomas no longer feels conscious about his teeth "sticking out" and are now more level, he is delighted with his new smile giving him more confidence. It was a pleasure helping him to create his smile makeover.

Have a look for yourself at the new smile created. This is Thomas' before and after results.

## Invisalign

What is Invisalign?

Invisalign is an excellent method of aligning teeth without having that typical 'train track' brace. It is a clear removable aligner; this allows you to straighten your teeth without anyone even noticing your wearing a brace.

Invisalign is quick, comfortable and discreet and can straighten teeth within just 6 months!

Also, at the practice we offer Interest Free Finance for 6, 10 or 12 months, it can also be extended over a longer period of time, please note APR fees would then apply.
